The Baltimore City Department of Public Works Public Information Meeting

WC1278 – Old York Road & Vicinity Water Main Replacements

December 11, 2014

6:00 p.m.

Walter P. Carter Elementary/Middle School - Library

820 E. 43rd Street, Baltimore, MD 21212

General Information

- Like most large cities in the nation, Baltimore City faces the challenge of dealing with an aging water infrastructure.
- Many of our pipes are between 80 and 100 years old, which are close to the end of the average service life.
- You are receiving this flyer because a water main replacement and/or relocation project is scheduled in your area, and the City would like to inform you about the project details.
- We are committed to meeting with residents and stakeholders about our many initiatives to improve our water infrastructure and look forward to meeting with your community on the above date.
- Free and convenient parking is available at the meetings, and all are welcome. All meeting locations are ADA-compliant. Persons planning to attend who need auxiliary aids, services, or accommodations should call Dena Rattner at 410-396-8966 or email publicworks@baltimorecity.gov at least 7 days in advance to confirm your accommodation.

To RSVP, please call 410-396-8966 or email publicworks@baltimorecity.gov by 12/2/2014.

Impacted Communities

- Rose Hill Terrace
- Walter P. Carter Elementary/Middle School
