# The Baltimore City Department of Public Works Project Details

## WC #1261 Falls Road / Union Avenue / Buena Vista Avenue – Urgent Need Water Main Replacement

### Project History

The City of Baltimore supplies drinking water to 1.8 million people in the Baltimore Metropolitan Area and maintains 3800 miles of water mains, 67,500 valves and 23,000 fire hydrants. Many of the water mains are over 100 years of age. The City is faced with the challenge of the old and failing infrastructure, which is why the water mains in your area are being replaced.

### Project Purpose

- Replace water mains that are up to 100 years old
- Improve water flows
- Eliminate water discoloration
- Minimize street closures due to water main breaks
- Reduce water system disruptions and costly repairs

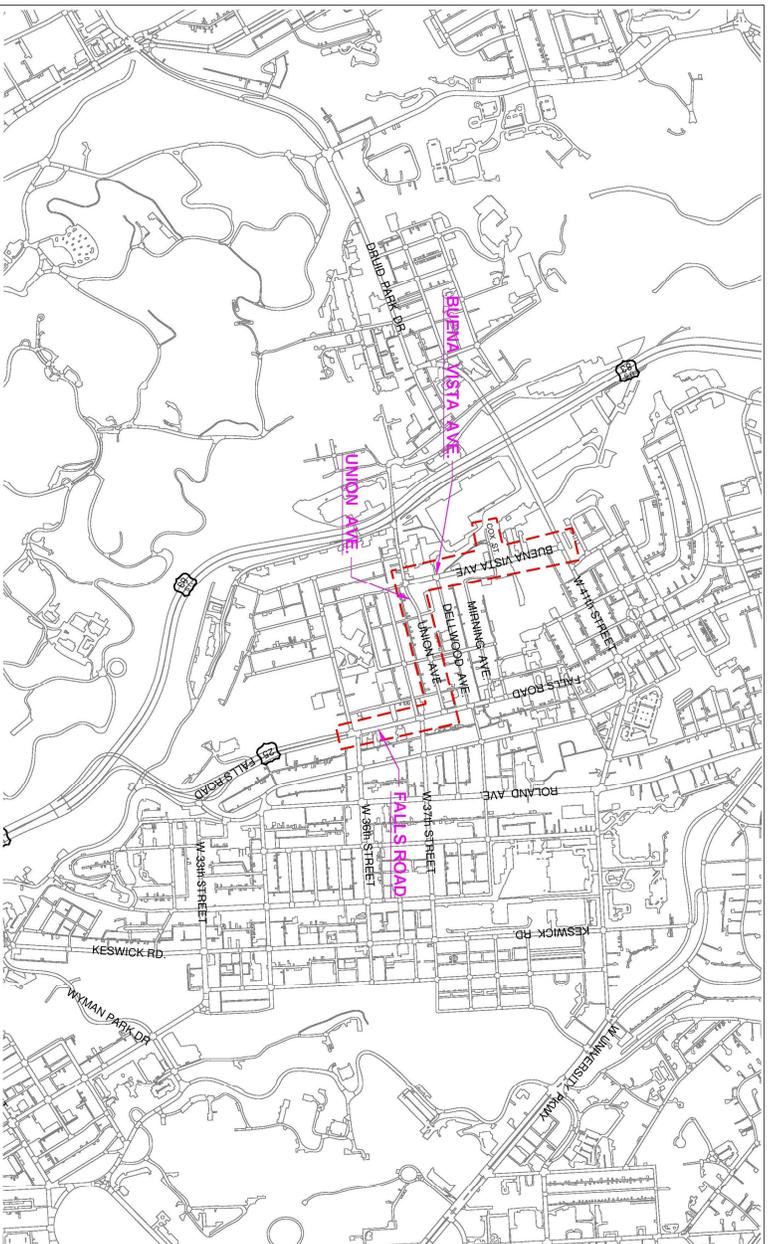

### Project Activities

- Provide water through temporary bypass pipes during construction
- Replace existing water mains by open cut (**3,480±** Linear Feet)
- Renew/Replace existing water house connections
- Replace existing fire hydrants with new fire hydrants within the projects limits
- Replace various sized existing valves within the project limits

### Project Schedule

# WC # 1261 FALLS RD / UNION AVE / BUENA VISTA AVE WATER MAIN REPLACEMENT
